

Primary Science Opportunities at Malmesbury School 2018/19

We are running a series of events throughout the academic year to support Primary Science in the region. All events are run in conjunction with STEM Learning and Adfecto.

Who is this course for?

Primary teachers, science co-ordinators/leaders, ASTs or SLEs, NQTs.

Why attend?

Each course focuses on an area of the National Curriculum and explores the topic in greater depth. The aims of each session include:

- developing safe and stimulating activities to engage children
- developing the teaching and assessment of working scientifically in your school
- developing schemes of work/learning in order to enhance the teaching and learning of science in schools
- improving attainment in science
- growing your confidence in teaching different areas of the National Curriculum

Refreshments and lunch are provided on all full day courses

How to Apply

For more information and to register your interest on any of these courses, please visit booking@avontsa.com or click on the links in the table below.

Course Title	Date	Time	Price
<p><u>Making Powerful Connections between Mathematics and Science</u> Collecting, analysing and presenting data in science requires and provides opportunity for the use and development of mathematical skills.</p>	16 Oct 2018	09.00 –16.00	£99
<p><u>North Wiltshire Primary Science Network</u> This is a local network meeting facilitated by local teachers to share good practice.</p>	15 Nov 2018 12 Mar 2019	13.30 –16.00	£90 per session
<p><u>Engaging Science in KS1</u> Try out ideas for practical science that can be used with young children to develop a range of scientific skills and explore opportunities to promote children's social skills.</p>	06 Feb 2019	09.00 –16.00	£99
<p><u>Working Scientifically in KS2 – why & how?</u> You will be able to implement strategies for planning, resourcing and organising a range of types of enquiry in order to improve children's outcomes.</p>	28 Feb 2019	09.00 –16.00	£99
<p><u>Assessment & Progression in Primary Science</u> Evidence shows that effective Assessment for Learning (AfL) leads to raised attainment. Now that formal recording of levels has been removed, you need to be secure in your understanding of how to make judgements about children's achievements and progress. Throughout the course we will identify how you can integrate and embed assessment practices into your science teaching.</p>	18 June 2019	09.00 –16.00	£99
