CLEAPSS non-members	On request

CLEAPSS Health & Safety Management For Heads of Science, Malmesbury School 6 February 2020, 09.00 – 16.00hrs

Who is this course for?

The main focus of this course is on management issues and risk assessment. It is intended for Heads of Science, their deputies, heads of physics, chemistry and biology and those aspiring to such posts.

Outcomes

The objectives of the day are to:

- Raise awareness of current and significant safety issues in science teaching
- Develop a better understanding of what is required by health & safety legislation
- Consider the implication of this for the management of safety in science departments
- Consider the risk assessment process, as requirement by the Management regs, COSHH regs and others
- Devise an action plan

The day will be mixture of input from the trainer, discussion and a variety of activities intended to enhance participants understanding of the legislative framework and how it applies in schools, especially risk assessment.

How to Apply

To register your interest for a place on the CLEAPSS Health & Safety Management for Heads of Science , which will be held at Malmesbury School, please complete the booking form on our website or email info@avontsa.com giving your name, school and contact details.

The deadline for booking this course is **22 January 2020**.

Outcomes

By the end of the day participants:

- Will have explored in detail what health & safety legislation requires and what it does not
- Will have considered what constitutes a sensible, manageable and effective approach to risk assessment
- Will appreciate the need for a health & safety policy
- Will have considered how its implementation can be sensibly monitored.
