CLEAPSS Supporting Safe & Successful Classroom Physics, Malmesbury School

Wednesday, 10 March 2021, 09.00 -16.00hrs

Why come on this course?

This one day course is designed to enable secondary school science laboratory technicians to be more confident in supporting the teaching of practical physics. It also provides a valuable opportunity for technicians to meet together and share expertise.

This course assumes a basic level of experience in physics.

What will we do on the course?

Topics covered include:

- **Physics Safety Overview**
Hazard identification and risk assessment with demonstrations, including lasers, microwaves, ionising radiations, heat, flammable liquids, electrical and mechanical hazards.
- **Practical Workshop**
Hands-on activities with an emphasis on the work often carried out by technicians to support physics teaching.

How to Apply

To register your interest for a place on the CLEAPSS Supporting Safe & Successful Classroom Physics, which will be held at Malmesbury School, please complete the booking form on our website or email info@avontsa.com giving your name, school and contact details.

The deadline for booking this course is **24 February 2021**.
